

Please help brighten up January!

January can be quiet and dull for many of us. Could you organise an activity, outing or informal get-together for our 'summer holiday program'? We've already had offers of singing together, a variety of tabletop word games, and 'pétanque and plonk' in the early evening. Some of the regular activities (tai chi, table tennis, and chess) continue during January. But because so much closes down at this time of year, it can be a great time to try out something with other members. And if you'd like to run something new and don't want to commit to a full course, why not put it in the summer program?

Any ideas? Please contact me before Friday 9 November so the program can go in the December newsletter.
